

## 1. Park your car in the parking!

Don't park it by the barriers or you'll block the entrance to all other guests or on the road because too many cars may obstruct the entrance path. enter the camping on foot at first: you'll be allowed to take your vehicles in after the paper work is done!

## 2. Keep your passports handy!

Passports of all the family members (children included) are necessary to fill in registration documents. It usually takes few minutes.

It is compulsory for all hotels/camping sites to make a list of all arrivals and send it to the local police.

## 3. Inform about all extras and changes!

Don't forget to inform about all people staying and all extras. If you don't do it upon checking in, there will be some issues with your bill at the end of your stay. If there's any change (people coming or leaving) inform!

If you listen carefully to the information given upon checking-in, you'll see that many questions already find an answer! This helps you not to wait in line at the Reception more than necessary. In case you missed something, we'll give you some papers containing all needed information.

## 4. Get useful advices!

THANK YOU  
HAVE A NICE STAY!
